## ANNUAL GENERAL MEETING & LIGHT PASTA DINNER

Tuesday, June 23, 2009

### Come and Support Your Local Hospital

There will be a tour of the Hospital's most exciting areas of major expansion project. Hear about their innovative business practices which have significantly reduced the operating expenses and preserved revenues for the Hospital's core business – providing expert and compassionate patient care to the people of our community.

Some of these innovations include the creation of a multi-hospital purchasing group, an integrated facilities management partnership that has reduced costs and dramatically improved quality of a variety of in-house support services, and a number of private/public partnerships that have enabled the Hospital to expand services without any out of pocket costs to the patients.
